NEW

NEW LOOK!

How is Eustachi different from the Valium® "Moose"? When you pinch your nose and blow, you aren't pushing or pulling air into your Eustachian tube. You aren't really popping someone else, but you can use the Eustachi on someone who needs help managing their ears.

44 recently purchased this product. They're all absolutely love it. While it had been around a while, it came as a lightbulb moment for me. I've always found ear pressure during flights - especially small flights. Everyone who travels should have this product. 5/5

Gene H., 35 - Year Flight Attendant
